

AFE CONTROL

PFADT SERIES

TRANSMISSION MOUNTS

2005-2013 CORVETTE (C6)

Note: This part is also available on pfadtracing.com

FEATURES & BENEFITS

Reduces Drivetrain Deflection, Improving Traction

The aFe Control, PFADT Series transmission mount set is designed to replace the OE mounts with upgraded polyurethane bushings improving vehicle launches, and traction.

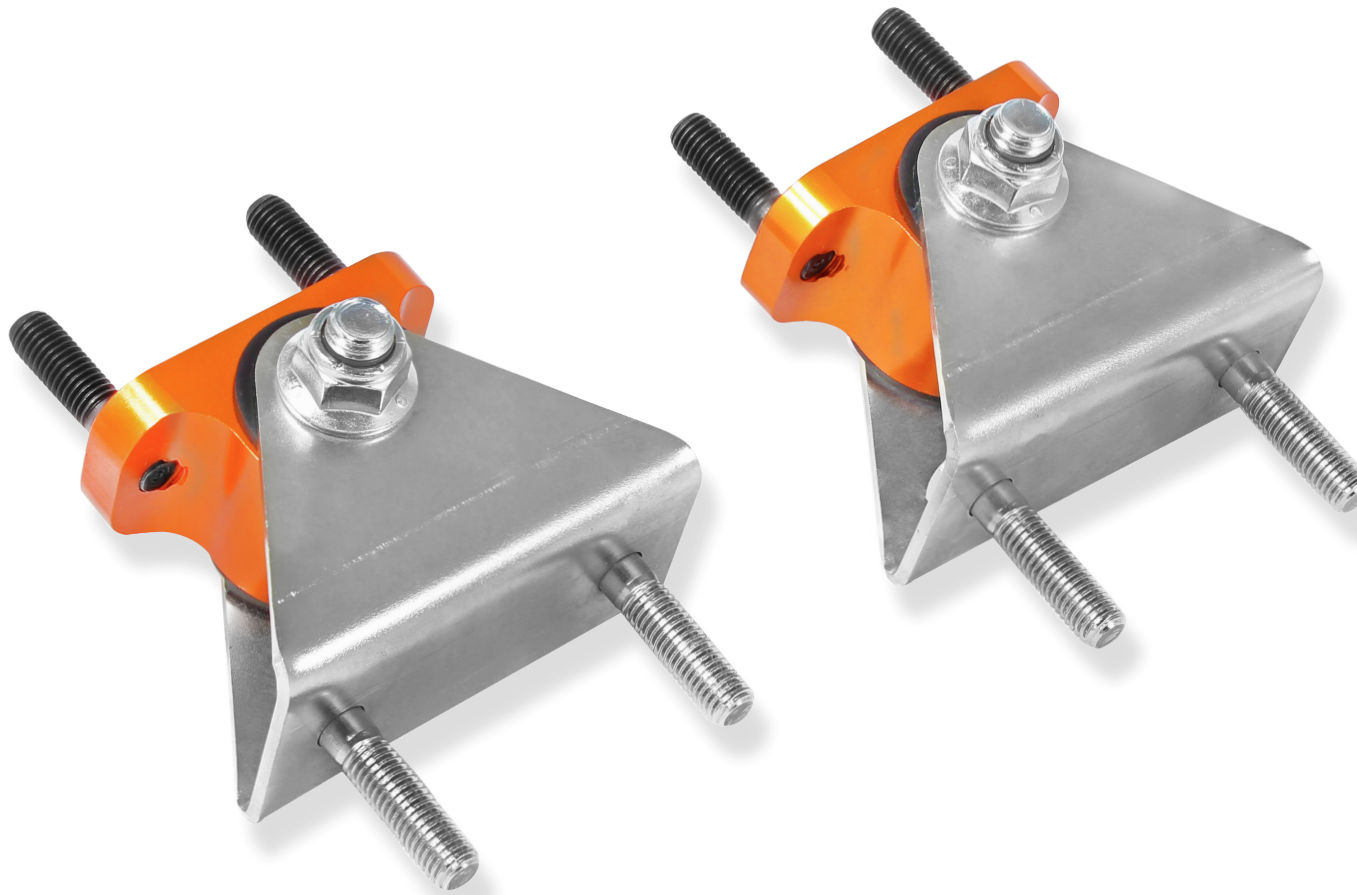

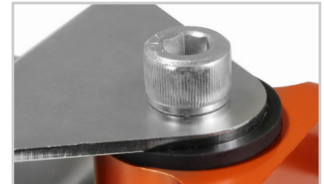

CNC Machined 6061

CNC machined, 6061 Anodized T6 Aluminum, mated to nickel plated chassis mounts and included grade 10.9 hardware.

Polyurethane Bushings

Harder durometer polyurethane bushings reduce drivetrain flex, while still offering a comfortable ride for street use.
