Mounting Brackets

License plate X holder

PROCEDURE:

1. REMOVE CONTENTS FROM BOX. VERIFY ALL PARTS ARE PRESENT. READ INSTRUCTIONS CAREFULLY BEFORE STARTING INSTALLATION.
2. Begin installation by removing License plate & factory holder (if equipped)
3. Once removed begin installation by locating & removing the 2 factory bolts just under the front bumper lip on passenger right side vehicle (**Fig 1**) shows location of factory bolts.
4. With these two bolts removed select the Mount Bracket above and secure to the bumper lip with the (2) 6mm x 25mm Hex bolts & (2) 6mm flat washers & (2) 6mm lock washers as seen in (**Fig 2**). Snug but do not tighten hardware at this time.
5. Attach and secure the License plate X holder to the mount bracket you have just installed with the (1) 8mm x 20mm Hex bolt, (2) 8mm flat washers, (1) 8mm lock washer & (1) 8mm Hex nut **Note: there are 3 holes for various position for you to choose**, when you have selected to which hole you will use tighten all hardware.

6. Next, select your License plate and secure it to the Holder with the (4) 6mm x 25mm Hex bolt, (4) 6mm flat washers & (4) 6mm lock washers, from the list of parts above, **(Fig 3)** shows installation complete.

7. Do periodic inspections to the installation to make sure all hardware is secure and tight.

To protect your investment, wax this product after installing. Regular waxing is recommended to add a protective layer over the finish. Do not use any type of polish or wax that may contain abrasives that could damage the finish.

For stainless steel: Aluminum polish may be used to polish small scratches and scuffs on the finish. Mild soap may be used also to clean the Sidebar.

For gloss black finishes: Mild soap may be used to clean the Sidebar.
