The Bestop Bikini Top is designed to attach to your Toyota Land Cruiser® windshield and to be supported by the factory sportbar.

Step One

Unfold the top and lay it upside down on the hood. Insert the front edge of the top, the plastic only, into the retainer channel on the windshield. Then flip it over the windshield and sportbar. Pull the top down at the rear with the two straps.

Note: Your vehicle will be equipped with a retainer channel if you have a complete soft top. If you are installing the Bikini Top on a vehicle designed for a hard top, it will be necessary to obtain a retainer from your local distributor.

Step Two

Install the Footman Loops on the rear corners of the vehicle. Center the loops on the top, rear corner on each side of the vehicle. Use the loop as a template to mark, center punch and drill two 5/32" holes. Install the Footman Loop with two #10 x 1/2" Oval Head Phillips Screws. Do this on both sides of the vehicle.

Care and Maintenance of your Bestop Top

Your top is made of the finest materials available. To keep it looking new and for the maximum possible wear, it will need periodic cleaning and maintenance.

Washing: The top fabric should be washed often using soap, warm water and a soft bristle brush. Rinse with clear water to remove all traces of soap.

Water: Seeping through at the seams may be stopped by applying 3-M Scotchgard® on the inside of the seams. Rips in the fabric may be repaired with Bondex® iron on patches. Iron the patches to the Inside of the top, carefully following the Bondex® instructions.
