For: Wrangler/YJ 1988 - 1995

Part Number: 58599

WARNING

This product is designed to enhance the appearance of the vehicle and to shield the occupants from ordinary weather conditions. The safety characteristics of this product are extremely limited. Do not rely in any way on the components of this product to contain occupants within the vehicle, or to protect against injury or death in the event of an accident. This product will not protect the occupants from falling objects. Never operate vehicle in excess of manufacturer's specifications.

WEAR SEAT BELTS AT ALL TIMES

Read and follow, precisely, all installation instructions provided when installing. Failure to do so may result in a poor fit and could place occupants of the vehicle in a potentially dangerous situation.

Installation Tips

Before you begin installing this product read all instructions thoroughly. After completing the installation, keep these instructions for further reference. Below are a few tips to make this installation easier.

For a smooth fit:

For ease in installation, this product should be installed at temperatures above 72° F. Below this temperature, the fabric may contract an inch or more, making it difficult to fit to the vehicle.

It is normal for the fabric to contract and wrinkle when stored in the shipping carton. Within a few days after the installation, the fabric will relax and the wrinkles will disappear.

Rear Curtain (Window)	Qty - 1

Step One

Start the zippers 2-3 inches on the top and rear of the Quarter Window.

Note: It may be easier to install the Side Curtains with the spreader bar pulled down.

Step Two

Wrap fabric flap on the front of the Quarter Window around the Vertical Rod (not the front bow) and fasten the hook and loop strips to each other.

Rear Curtain Retainer

Slide Rear Curtain Retainer onto Rear Curtain. Push Rear Curtain Retainer into top of Tailgate Retainer.

Step Four

Start the zippers 2-3 inches on the top and sides of the Rear Curtain.

Open the tailgate. Slide the Rear Curtain Retainer onto the bottom of the Rear Curtain. Close the Rear Curtain zippers. Push the Rear Curtain Retainer into the top of the Tailgate Retainer. Slip the plastic on the bottom of the corners under the bottom of the Tailgate Retainer.

Step Five

Push the spreader bars up into the horizontal position.

Warning: When operating the vehicle without the Quarter Windows the Rear Curtain should be rolled up for proper ventilation.

Adjusting the Top

Quarter Windows

To remove the Quarter Windows, unzip the rear and top zippers. Release the plastic strip from the retainer. Release the Hook and Loop Fasteners from around the Vertical Retainer.

Rear Curtain

To roll up the Rear Curtain, unzip the side zippers. Remove the Tailgate Bar and start to roll the curtain at the bottom, rolling it to the inside. Avoid wrinkles in the fabric and window. Secure it in place with the curtain straps inside of the top.

Care and Maintenance of your Bestop Top

Your top is made of the finest materials available. To keep it looking new and for the maximum possible wear, it will need periodic cleaning and maintenance.

Washing: The top fabric should be washed often using soap, warm water and a soft bristle brush. Rinse with clear water to remove all traces of soap.

Windows: Keep windows clean to avoid scratching. DO NOT use a brush on the windows! Wash with a watersoaked cloth or sponge and a mild dishwashing detergent. NEVER WIPE THE WINDOWS WHEN THEY ARE DRY. Be careful when cleaning snow or frost from the vinyl windows since they are easily scratched and may crack at low temperatures. DO NOT roll the sides or rear window in cold weather. The windows become stiff and will crack.

Zippers: Keeping the zipper cleaned and lubricated with a silicone lubricant will help prevent damage and keep the zippers in a smooth working condition. If a zipper opens behind the slider, the slider may have been spread apart. This problem can usually be repaired by using an ordinary pair of pliers to bring the sides back into parallel. Return slider to the end of the zipper in the normal Open position. Squeeze lightly at first and test the zipper. If the zipper continues to remain open squeeze more firmly with the pliers and try the zipper again. Repeat this procedure until the zipper operates correctly.

Normal Slider -
Jaws Parallel

Damaged Slider -
Jaws Spread Apart
(sometimes broken)

Water: Seeping through at the seams may be stopped by applying 3-M Scotchgard® on the inside of the seams. Rips in the fabric may be repaired with Bondex® iron on patches. Iron the patches to the inside of the top, carefully following the Bondex® instructions.

Snap: Keep snaps cleaned and lubricated with silicone to help prevent snaps from sticking to the studs. If a snap does become stuck to a stud, use a screwdriver and GENTLY pry apart to prevent permanent damage to the snap or the top fabric.
