

IMPORTANT

DeLorean's Utilizing Part Number CF121284 & DF284121 Proper Flywheel Resurfacing

Centerforce recommends the original equipment (OE) or aftermarket flywheel be resurfaced flat when utilizing part number CF121284 or DF284121. The OE flywheel for the DeLorean vehicle is supplied with a factory flywheel step-up dimension of .012 - .015". The removal of the OE flywheel step-up dimension is important for improved clutch performance and service life.

"NOTE" Centerforce tip sheets are for general reference only. Please refer to your owners manual for vehicle specifications.
