HAVING INSTALLATION QUESTIONS? CALL TECHNICAL SUPPORT AT 1-800-798-0813

INSTALLATION STEPS

- Clear the spare tire well for drilling. On the rear bumper a rubber cover is fastened to the steel inner bumper at the stand-off-brackets near the bottom of the bumper. A 6" piece of the metal retainer and the rubber cover must be cut away between the brackets to allow the hitch bumper bracket to fit onto the steel inner bumper at the bumper center.
- 2. Using the hitch as a template, mark the inner bumper and spare tire well for hitch bolts. Centerpunch and drill holes in the bumper and tire well for 3/8" diameter fasteners.
- 3. Reposition the hitch on the vehicle and attach with fasteners as shown. Be certain to position the fender washers inside the vehicle, opposite the hitch.
- 4. Torque all 3/8" fasteners to 45 lb-ft.
- 5. Use silicone sealant to seal hardware installed through spare tire well.
- 6. Reinstall contents removed from spare tire well in Step 1.

PERIODICALLY CHECK THIS RECEIVER HITCH TO ENSURE THAT ALL FASTENERS ARE TIGHT AND THAT ALL STRUCTURAL COMPONENTS ARE SOUND.

Curt Manufacturing Inc., warrants this product to be free of defects in material and/or workmanship at the time of retail purchase by the original purchaser. If the product is found to be defective, Curt Manufacturing Inc., may repair or replace the product, at their option, when the product is returned, prepaid, with proof of purchase. Alteration to, misuse of, or improper installation of this product voids the warranty. Curt Manufacturing Inc.'s liability is limited to repair or replacement of products found to be defective, and specifically excludes liability for incidental or consequential loss or damage.
