

IMPORTANT!

This remanufactured common rail injector is assigned a 13 digit IQA (trim) code. This code can be found laser-etched into the body of the injector as shown below. This code will be needed for programming the injector to the vehicle after installation.

DO NOT install this injector until the date, part number, IQA code, and serial number have been recorded. It is also very important to record which cylinder this injector is installed in for IQA code programming.

Date	09.21.11
Part No.	0986 435 521RX
Serial No.	003659
IQA Code	CBD08050000000

Record and Save For Your Records:

Date _____

Part Number _____

IQA Code _____

Serial Number _____

Cylinder # Unit was Installed In _____
