Thank you for purchasing our Gibson exhaust system for your vehicle. If you need further assistance, please do not hesitate to call our technical dept at (800) 528-3044 Monday through Friday, 8:00 am to 5:00 pm.

EXHAUST INSTALLATION #5014

When installing this exhaust system make sure to use proper safety precautions. Use jack stands when under the truck, set parking brake, block tires and use safety glasses and gloves.

DO NOT WORK WITH HOT PIPES!

SUGGESTED TOOLS:

1/2", 9/16", 15mm wrench and socket, Wd-40, Hacksaw, Jack Stand

Lay out the exhaust on the floor so it looks like the drawing and compare parts with manual. **To remove the stock exhaust cut 13" just in front of the muffler.** Leave all rubber grommets in place. Use WD-40 to aid in removal of exhaust and hangers. Use hacksaw to cut tailpipe off.

Install passenger side overaxle tailpipe #D into muffler 1 1/2" to 2". Secure to muffler with clamp #H. Do not tighten.

Install driverside headpipe #B onto factory pipe. Then install headpipe #A onto factory pipe and insert welded hanger into rubber grommet. Secure both pipes with clamp #G. Do not tighten.

Install tailpipe hangers #I onto end of tailpipes using clamp #H. There will be about a 2" hole above the end of both tailpipes on the frame to bolt the hangers. Do not tighten.

Install muffler# C onto head pipes 1-1/2" to 2" with the louvers facing towards the converter. Outlets will be on top. Use a jack stand to support the muffler. Use clamps #G to secure the muffler to the head pipes. Do not tighten

Install exit pipes #F. Use clamps #H to secure exit pipes to tailpipes. These clamps also attach to the metal hangers. Rotate to adjust for clamping. Now go back and tighten up all clamps, nuts, and bolts.

Install driverside overaxle tailpipe #E into muffler 1-1/2" to 2". Support end of tailpipe with jack stand. Insert welded hanger into rubber grommet. Use clamp #H to secure pipe to muffler. Do not tighten.

Then install stainless steel tips and tighten.

MAKE SURE YOU HAVE A 1" CLEARANCE FROM ALL BRAKE LINES, SHOCK BOOTS, TIRES, FUEL LINES, ETC...
