part no. 2970521  
qty. 1 ea.

**HEXL-KEY**

part no. 2570520  
qty. 1

The Billet Boot Support can be used on most Hurst bolt-on sticks. See step 1 and verify your stick can fit in the Billet Boot Support opening. Read instructions carefully before adding your new Billet Boot Support to your Hurst shifter.

**Step 1.** Verify stick fitment

**Step 2.** Remove boot from stock plastic ring. Slip both o-rings on shifter stick. Place at desired location.

**Step 3.** Slide the Billet Boot Support over o-rings.

**Step 4.** Select appropriate set screw length. Use set screw to fix position on stick. **Note: Make sure set screw doesn't stick out of boot. Grind down set screw if necessary.**

**Step 5.** Slip Billet Boot Support back into boot. If necessary, cut boot ring opening to allow support to fit in boot. Use provided tie wrap to tie new boot support to boot.

**Enjoy!**  
**(Hard Drive Stick with Billet Boot Support shown)**

#### Technical Service

A highly trained technical service department is maintained by Hurst Performance to answer your technical questions, provide additional product information and offer various recommendations.
