

INSTALLATION INSTRUCTIONS

Part Number 33-2040

This filter fits: See catalog for current applications

* **FREE K&N® decal** To register your warranty, please see us online at knfilters.com/register. **FREE K&N® decal ***

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter is a direct replacement for the stock air filter, and no modification will be required. However the following procedures **MUST** be followed to ensure the proper fit and seal of the K&N® air filter.

INSTALLATION:

1. Remove the stock air filter.
2. Remove any hoses and/or wires that will limit the movement of the air box lid.
3. Install the K&N® air filter into the air box base making sure it is completely seated.
4. Reinstall the air box lid and make sure the tabs on the lid are inserted completely into the slots.
Hold pressure on the lid as the clips are tightened.

NOTE: Do not use grease on the air filter otherwise this will allow the lid to slide out of the tab slots.

5. Reinstall any hoses and/or wires removed in step 2.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
