General Installation Notes:

Please read instructions completely before beginning installation. If you have any questions please call.

Shift pattern lights only after kit is wired and indicator is engaged.

Before starting installation, set parking brake and scotch vehicle to avoid accidental movement of the vehicle. Disconnect battery cable before starting installation.

LED Boot Indicator Installation

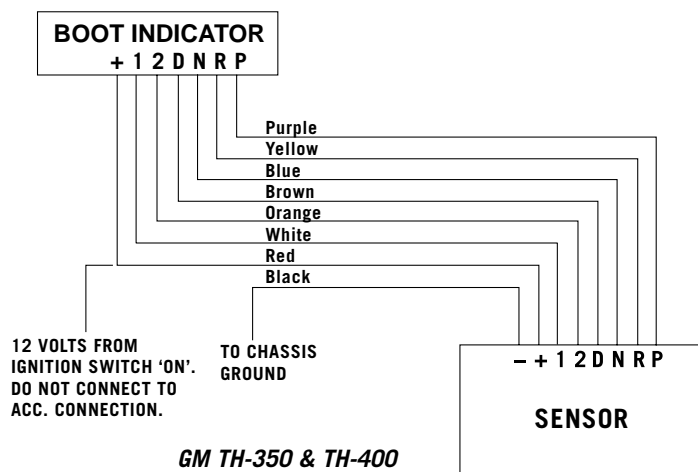

Step 1: When installing aluminum bezel, route wiring harness away from sharp edges.

Step 2: Round Boot Ring inner diameter is 4". **DO NOT CUT FLOOR OPENING BIGGER THAN A ROUND 4" HOLE.**

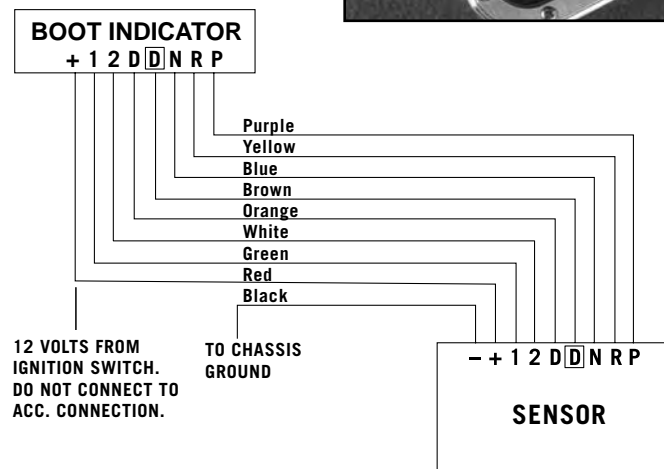

Rectangular Boot Ring inner dimensions are 4" x 5 1/4". **DO NOT CUT FLOOR OPENING BIGGER THAN 4" x 5 1/4".**

Step 3: When drilling holes for screws, use #32 or 1/8" drill.

Step 4: Use appropriate transmission wiring diagram to wire LED Indicator to Decoder Box. (See diagrams)
