Billet Grille

Uses Stock Hardware

Tools Required

Safety Glasses
and Gloves

1/16" Allen Wrench

Shipping Note

Sometimes the billet products get bent in the shipping process. You may need to hand bend them to attain the desired shape.

Remove the stock grille shell by unbolting it from vehicle.

Remove the stock plastic grille inserts by using a 1/16" allen wrench to push the center pin located in the center part of the stock mounting rivets (see diagram 1). Save the stock rivets for installation for later use.

Once the stock plastic grille is removed , mount the billet grille in place and use the stock plastic rivets to secure it into place.

Re-install the grille shell back to the vehicle.

Care and Cleaning

To keep your billet inserts looking their best, we recommend using only mild soap and water and a soft cotton cloth to wash and dry it. Use of rough cleaning agents or cloths may scratch or dull your billet inserts.

Should your billet inserts become scratched or dull, we recommend TRENZ® Metal Polish to bring back the mirror finish. There are three grades of TRENZ® Metal Polish (Coarse, Medium and Fine) that will help you keep your billet inserts looking brand new. Select the TRENZ® Metal Polishes best for your needs:

1. Course (Red) Polish – For severe scratches and pitted problems.
2. Medium (Green) Polish – For light scratches and dulling problems.
3. Fine (White) Polish – To bring back the mirror finish.

TRENZ® Metal Polish can be used on all metal products, including aluminum, stainless steel, brass and copper. If you have additional questions or concerns on the maintenance of your Lund® billet inserts, please call us at 800-328-5863. You may also use high quality commercially available polish recommended for aluminum accessories.

Congratulations!

You have purchased one of many quality Lund® branded products offered by Lund International, Inc. We take the utmost pride in our products and want you to enjoy years of satisfaction from your investment. We have made every effort to ensure that your product is top quality in terms of fit, durability, finish and ease of installation.
