

70-9003 INSTALLATION INSTRUCTIONS

BMW/MINI/VOLKSWAGEN 2002-2007

For all vehicles except MINI:

Use the **long red wire** included with the harness to run a switched ignition 12 volt source to the radio from the vehicle's fuse box.

For MINI only:

Insert the **short red wire** included with the harness into pin sixteen of the harness. **(See back)**
