1 PC HYBRID SERIES BUMPER – CHROME

(Will not fit 2006 Models)

Recommended Tools:

3/8 Wrench
Slotted Screwdriver
Liquid Thread Lock

Parts List / Hardware:

1 Billet Inserts
3 10-32 x 2" Aluminum Threaded Studs
3 10-32 Nylon Lock Nuts
3 1.5" J Hooks

Read and understand instructions before attempting installation

Step 1

Test fit the billet in place; the flat aluminum spacer welded to the grille rest on the bottom. Thread the studs into the lower mounting holes. A small amount of liquid thread lock may be applied to the threads. **BE SURE NOT TO OVER-TIGHTEN THE STUDS** (Over-tightening can cause dimpling to the face of the billets).

Step 2

Install a J hook and nylon lock nut onto each stud. Center the grille into the opening and wrap the J hooks around the rear of the bumper opening. Tighten the hardware until the grille is held in place.

Thank you for purchasing your T-Rex billet grille. 2/27/07
