- **20:** Plug in all O2 sensor connections.
- 21: Re-install exhaust system and fasten to aFe power Y-pipe using the original clamp.
- 22: Re-connect battery.

NOTES:

• aFe recommends that the tail-pipe be at least 1/2"-1" away from any body panels to avoid heat related body damage. Tighten and secure.

Caution: Allow time for your vehicle to cool down prior to installation. When working on or under your vehicle proceed with caution. Exhaust systems reach high temperatures and may cause serious burns. Wear protective safety equipment; eye goggles and gloves to ensure a safe installation. **aFe recommends professional installation on our products.**
