Operation

- The TrekStep™ is foot operated and deploys and retracts with a nudge of your foot.
- To deploy, press down using your left foot, on the forward outside corner of the step pad.
- To retract, gently kick the underside of the step pad.
- Max Load Capacity: 300 lbs.
- Always use appropriate hand holds when stepping up to or down from your truck's cargo bed.

Care and Maintenance

The step pad surface and linkage arms should be washed with mild soap and water using a soft brush or sponge to dislodge any mud, dirt or accumulated road grime. Rinse with fresh water. After it is dry, lubricate the hinge with 3-IN-ONE Oil.

To prevent slipping, avoid applying waxes, lubricants or protectants like Armor All® to the step surface.

Attention!

TrekStep™ SHOULD ALWAYS BE STOWED IN THE RETRACTED POSITION WHEN DRIVING.
