P21618	Slim Grip Cell Phone Holder	1
P21229	Bag with Holder Clip and Ring	1

KU81001BK Hands Free Phone Grip™

Verify all the items are present from the Bill of Materials.

Using the assortment of "arms" insert the desired arm length into the ends of the slim grip holder.

Insert the tabs in the back of the slim grip holder and firmly snap into place to lock in mount

Correctly mounted assembly.

Using the supplied rubber plugs, insert into the 4 corners of the slim grip holder.

Locate the ring, slim grip holder and foam grip assembly.

Insert the threaded ring over the ball on the arm before clipping in the slip grip holder. With slight pressure, press the threaded socket onto the sphere.

With the threaded ring firmly fastened to the foam cup mount, you are ready to install to your vehicle.

Note: Slip grip holder is spring loaded for multi height device use.

Press the Phone grip **firmly** into place to seat the foam base into the desired location.

You are now ready to use your Hands Free Phone Grip!
For different viewing positions, simply loosen the threaded ring to allow phone cradle adjustment. Once you are happy with the angle, re-tighten the ring for a stationary placement.

NOTE: Some cupholders may be too shallow to fully seat the Phone Grip, Trimming the foam base may be necessary for best fit. A common serrated knife will neatly trim the tapered foam base. Carefully trim until you're satisfied with the fit.
