UNIVERSAL LIGHT BRACKETS

1. Place the universal light bracket to the front of the grill insert. Lay the bracket against one of the cross pipes and line up the bolt holes with an opening in the insert.
2. Line up the back bracket to the front light bracket.
3. Insert bolts through the front of the grill insert and tighten nuts.
4. **MAKE SURE ALL NUTS AND BOLTS ARE TIGHT!**

WARNING

Special care should be exercised in the handling, storage and installation of Kaspar Ranch Hand equipment.

The actual weight of each piece of equipment will vary depending on style and model. The weight of the equipment is sufficient in volume to warrant special care, assistance and in some instances, the use of mechanical equipment during the transfer and installation of the equipment.

Do not assume a position directly under the equipment during installation. Be sure the equipment has been connected and stabilized during installation to prevent falling or shifting of positions.

Periodically check tightness of bolts to make sure they are tight, and unlikely to fail.
