

2014 Chevrolet 1500 FBR Part # 300-21-4009, XFBR Part # 600-21-4009 - WILL FIT ALL 1500 MODELS INCLUDING FRONT PARK ASSIST!!

FRONTIER
TRUCK GEAR

Steel plate washer

Lower Frame Bracket

Upper Frame Bracket

Step 1: Remove plastic trim on top of chrome bumper. This is done by removing a series of small bolts/screws on the ends by the fender wells. The center is held in place by plastic pegs that you can get to from underneath the vehicle.

Step 2.: Remove factory chrome bumper. **TOW HOOK**

MODELS: You will need to remove tow hooks in order to mount frontier Lower frame bracket. Remount tow hook at same time you bolt up the lower frame Brackets. **NON-TOW**

HOOK MODELS: Use 1/2" X 1 3/4" bolts supplied to mount Frontier lower frame brackets. In order to secure bracket as tight as possible you must install our 1/2" bolt through the pre-punched hole on top of the bracket and squeeze bracket tightly to the tip of frame using the steel plate provided as a washer.

Step 3: Place upper plastic bumper pad back in place

Step 4: Install factory fog lights to front end using the 3/8" washers to hold light to steel bracket. Install Frontier FBR to lower frame brackets. Align + tighten all 4 bolts.

Step 5: Install Upper frame brackets to top of frame cap using the factory bolt.

Step 6: Check alignment of FBR to truck before tightening bolts on the upper brackets.

Bolt Bag Contents:
