

**WIRE CODE**

White wire.....Ground

Blue wire..... Electric brake

Black wire..... Battery

Red wire..... Stop lamp switch

1. Remove access panel in the center of dash on passenger side next to auxiliary switches.
2. Remove connector (Fig. 1 / A) from back of access panel.
3. Plug the brake control connector into the vehicle connector (Fig. 2).
4. Plug mating end of the connector into the brake control.
5. Test all functions.

Wire to brake control by function only. Color coding is not standard among all manufacturers. To ensure proper installation, read brake control instructions thoroughly.
