FRONT MUD GUARD INSTALLATION INSTRUCTIONS

Please read instructions thoroughly before installation.

Tools Required

- 10mm Socket

Package Contents

- Front Mud Guard
- Spring Clips X 2
- Instruction Sheet

Determine which mudguard you have by locating the part number molded in the mounting flange (5850 DS and 5850 PS).

1. Clean and degrease the mud guard location area on the fender before installation.
2. Remove existing fasteners from locations A.
3. Attach mud guard to front fender with factory fastener at locations A, check fit and make sure mud guard is parallel to ground before tightening. Install clip where shown.
