NEW PRODUCT

JET XCELERATOR #40110

Acura, Honda, Kia applications

The Xcelerator is an easy to install device that modifies the signal to your electronic throttle. This allows much quicker throttle response and removes that dreaded “throttle lag”. No more slow response, when you hit the pedal the vehicle responds!

- Multiple Performance Settings so you can adjust the throttle response for your driving style and/or upgrades
- Valet setting that restricts the throttle response
- Security setting that removes the throttle signal all together.
- OEM style connectors for simple installation

Retail \$385.99
