K&N® Cabin Air Filters replace your vehicle's stock cabin filter with a reusable design that cleans and freshens incoming air. They are electrostatically charged to grab and hold dust particles. K&N® cabin air filters help control odors while they help capture most mold, mildew, fungus, spores, bacteria and germs. When they get dirty they can be cleaned and reused and best of all, they come with a 10 year/Million mile limited warranty.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

When applicable, refer to owner's manual for manufacturers installation/removal instructions. The following are helpful steps when replacing/servicing cabin air filter with K&N® cabin air filter.

1. Open the glove box and locate the two plastic knobs on each side. Twist the knobs to remove them. Fig. 1&2
2. Locate the shock on the right side of the glove box. Squeeze the tab and pull the shock towards you to unhook. Fig 3&4
3. Lower the glove box to allow access to the cabin filter. Fig. 5
4. Remove the cabin filter door and slide the filter out towards you. Fig. 6&7

NOTE: Remove any dirt and debris that may be present in cabin filter housing.

5. Slide the K&N® cabin air filter into the housing with the K&N® logo facing outwards, right-side up. Fig. 8&9
6. Reverse steps 1-4 to complete the cabin filter installation. With the cabin filter installed, clean an area on the housing and apply the K&N® Stop Decal. The decal will help notify others that this is a reusable cabin filter.
