K&N® Cabin Air Filters replace your vehicle's stock cabin filter with a reusable design that cleans and freshens incoming air. They are electrostatically charged to grab and hold dust particles. K&N® cabin air filters help control odors while they help capture most mold, mildew, fungus, spores, bacteria and germs. When they get dirty they can be cleaned and reused and best of all, they come with a 10-year/Million Mile Limited Warranty.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

When applicable, refer to owner's manual for manufacturers installation/removal instructions. The following are helpful steps when replacing/servicing cabin air filter with K&N® cabin air filter.

(The following instructions are for the E-Series Automobiles)

1. Lift hood and locate the cowl vent panel on the passenger side. Fig.1
2. Undo the (2) lock-in fasteners and remove the cowl vent panel. Fig.2 & 3
3. Gently undo tabs to remove the cabin air filter holder. Fig.4-6
4. Remove dirty cabin air filter from holder and clean any debris that may be present in the cabin air filter holder. Fig.7
5. Install replacement K&N® cabin air filter into filter holder.

**NOTE: Install the flat surface on the open end of the air filter holder then slide the (3) tapered features on the closed end. Fig.8 & 9**

6. Reverse steps 1-6 to complete installation.
