K&N® Cabin Air Filters replace your vehicle's stock cabin filter with a reusable design that cleans and freshens incoming air. They are electrostatically charged to grab and hold dust particles. K&N® cabin air filters help control odors while they help capture most mold, mildew, fungus, spores, bacteria and germs. When they get dirty they can be cleaned and reused and best of all, they come with a No-Hassle Lifetime Limited Warranty.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

When applicable, refer to owner's manual for manufacturers installation/removal instructions. The following are helpful steps when replacing/servicing cabin air filter with K&N® cabin air filter.

1. Open glove box and locate the panel door. (Fig. 1 - 2)
2. Squeeze the tab to remove the panel door to gain access to the cabin filter housing door. (Fig. 3)
3. Remove housing door by lifting the tab on the right side and remove the tray with cabin filter. (Fig. 4 - 6)
4. Remove the dirty cabin filter from tray. (Fig. 7)
5. Install the K&N cabin air filter into tray with K&N logo and part number facing upward. (Fig. 8) **NOTE: Angle the filter to get one edge under the tabs on one side, then gently bend the other end of the filter under the tabs.**
6. Re-install the cabin filter tray. (Fig. 9)
7. Reverse steps 1-5 to complete the cabin filter installation. With the filter installed, clean an area and apply the K&N Stop Decal. The decal will help notify others that this is a reusable cabin filter.
