

HIGH PERFORMANCE ELECTRIC FUEL PUMPS & FUEL PRESSURE REGULATOR

- *New quieter design outflows the competition*
- *100% pressure tested for guaranteed performance and reliability*
- *3/8" NPT inlet/outlet for easy installation*
- *Universal fit – Includes mounting bracket*

#95P
95 GPH Flow Pump, 7 PSI max pressure

#105P
105 GPH Flow Pump, 14 PSI max pressure
Includes Pressure Regulator

#130P
130 GPH Flow Pump, 14 PSI max pressure

#2015
Fuel Pressure Regulator, 4.5-9 PSI

NOT compatible with alcohol or methanol fuels and NOT for use with fuel injection.

MICRO ELECTRIC FUEL PUMPS

FUEL PUMPS

- Compatible with gasoline based fuels and additives
- Solid-state worry free electronics
- Eliminates vapor lock and flooding
- Great stand-alone, booster or fuel transfer pump
- Self-priming, 2-wire design
- 12 volt negative ground systems only
- Includes fittings and mounting hardware
- Require approximately one amp average draw at maximum delivery

4-7 PSI, 35 GPH Universal design for most domestic 4, 6 & 8 cylinder carburetor applications..... 12S

2-3.5 PSI, 42 GPH Universal design for most import 4, 6 cylinder carburetor applications 42S

NOT FOR FUEL INJECTED APPLICATIONS

DIESEL FUEL PUMP

- Compatible with diesel fuel
- Solid-state worry free electronics
- Self-priming, 2-wire design
- 12 volt negative ground systems only
- Includes 100 micron in-line filter

4-7 PSI, 35 GPH Universal design for most diesel applications..... 12D

#12S

#12D

#42S
