

PARTS INCLUDED:	Qty
Light Bar	1
Base Brackets	2
HARDWARE PACK:	1
8x20mm Button head	6
8x20mm Hex head	4
8mm tinnerman clips	4
8mm washers	12
8mm nuts	6

INSTALLATION:

Step 1: Insert the four 8mm tinnerman clips into the mounting holes located behind the bumper opening.

Step 2: Align the two Base brackets to the 8mm clip mounts and fasten using the supplied 8X 20mm hex head bolts and washers. Loosely tighten at this time.

Step 3: Align the Light bar brackets with the Base brackets and fasten with the supplied 8 X 20mm button head bolts, nuts, and washer and loosely tighten.

Step 4: Once the light bar is aligned to desired position, tighten all hardware. Your install is now complete.
