Parts Included:	QTY
RDS BUMPER	1

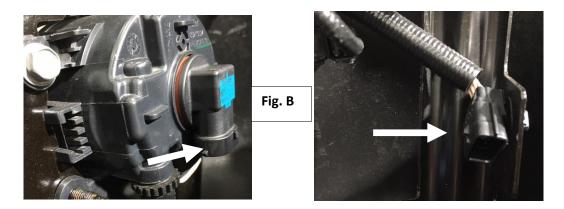

(Shown with a 40" curved LED)

BUMPER REMOVEAL

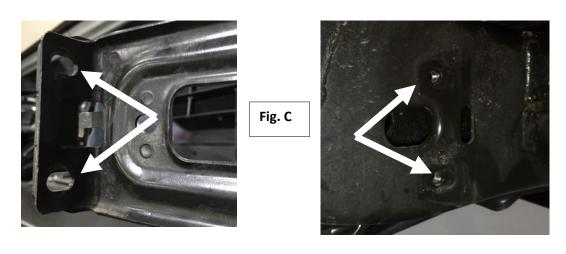

<u>Step 1:</u> Remove the OE grill by releasing the 10 retaining pins. There will be 6 located on the top of the grill and 4 in the face of the grill. (Fig. A)

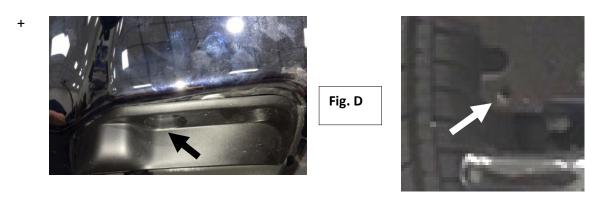

Step 2: Unplug fog lights and sensors if so equipped. (Fig B)

<u>Step 3:</u> Remove the two bolts connecting the bumper brace to the frame. (Both sides) (Fig. C)

<u>Step 4:</u> Remove the screw that attaches the lower plastic cap to the bumper and remove (Both sides). Remove the lower bumper bolt (both sides). (**Fig. D**)

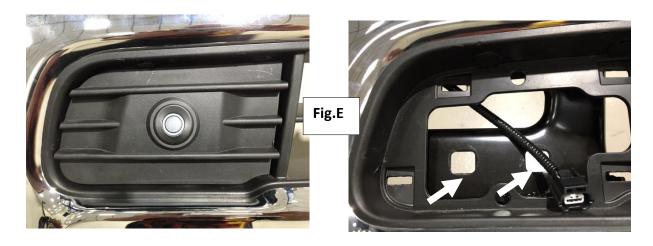

PART NUMBER: **N161MRDS** PRODUCT: **RDS BUMPER**

APPLICATION: 16-C

NISSAN TITAN

Step 5; Remove the two bumper inserts to access the upper bolts. (Both sides) (Fig. E)

Step 6: Remove the four bumper bolts and carefully remove the bumper and set aside.

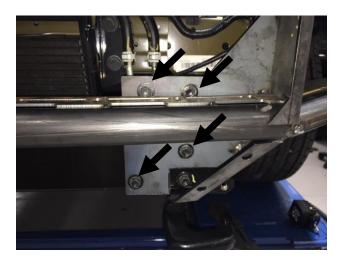

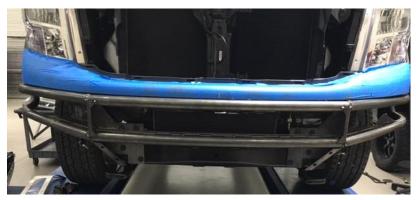

RDS Bumper Install

Step 1: Remove the skid plate from the RDS bumper and set aside.

 $\underline{\textbf{Step 2:}} \ \ \textbf{Carefully lift RDS bumper into place aligning the brackets to the OE frame mounts.}$

Using the factory bolts install the RDS bumper leaving the hardware loose. (Fig. A)

Step 3: After finial adjustment, tighten all hardware.

<u>Step 4:</u> Next, re-install the skid plate and fully tighten. **NOTE: depending on the application, it** may be easier to install lights before mounting the skid plate.

Step 5: Re-install OE grill using the factory hardware.
