

PART NUMBER: T0649LR , T0650LR

PRODUCT: LED Light Bar Mount
APPLICATION: 07-14 FJ Cruiser
(Fits lights from 49"-50 3/8")

PARTS INCLUDED	QTY
LED Mounting Brackets	2
HARDWARE PACK	1
M8X35mm Hex Bolt	4
5/16 Flat Washer	4
3/4 plastic end caps	2

NOTE: Carefully read entire instructions thoroughly before attempting to install part.

Installation:

STEP 1: Remove the four factory bolts from the two front roof rack brackets and discard.

Step 2: Install LED light into both left and right bracket using the supplied security nuts and key to create an assembly.

STEP 3: Align the light bar brackets with the factory hole locations on the roof rack. **NOTE:** You can use the 3/8" spacers between the light rack and roof rack mounting positions to raise the light bar off the roof rack as an option.

STEP 4: Start an 8mm x 2 1/2 hex bolts, 5/16 washer and 3/8 spacer (spacer optional see note above) in each bolt location and hand tighten.

STEP 5: After final positioning, torque each bolt location to 15-20 ft/lbs. This concludes the light bar installation

FJ Cruiser Without Factory Roof Rack

STEP 1: Remove both rubber gaskets that are located on the roof top. This will expose the two factory bolts on each side.

STEP 2: See steps 2-4 above. This concludes the light bar installation.
