VEHICLE: 2019-23 TOYOTA RAV4 TRD
& ADVENTURE EDITION

LIFT TYPE: SST LIFT KIT

LIFT HEIGHT: 2"

MAX TIRE SIZE: 245/65 R17

WHEEL WIDTH: 8"

WHEEL OFFSET: +25-28

PART NUMBER: 69-59210

ReadyLIFT's 2" SST Lift Kit for 2019-2023 Toyota RAV4 vehicles has been a huge success so the engineers borrowed key elements of the standard kit to create a unique kit fitting the popular TRD and Adventure Edition models. The RAV4 has become a choice for adventure enthusiasts who not only want a great riding vehicle on the road, but demand one that is also more capable in off-road environments. Using our popular offset spacer lift technology developed in our extensive CUV line of products, engineers recently completed a new RAV4 lift solution increasing ground clearance and allowing for larger tires including a P245 tire. This kit is completely bolt-on and requires no permanent vehicle modifications, installs in half the time of other kits, and retains the factory camber/caster for ideal alignment courtesy of our unique offset spacer design. This new Toyota RAV4 TRD/Adventure SST Lift Kit maintains the factory ride while accommodating up to a 245/65-17 tire on a 17x8 wheel with a +35 to +38 mm offset (may require minor trimming depending on the tire brand and tread design.)

Features & Benefits:

- Works with factory lifted RAV4 TRD and Adventure Edition
- Offset designed fabricated heavy-duty steel plate top mount strut extensions to maintain factory alignment geometry.
- Tested and approved to work with Toyota Safety Sense*
- Allows for up to a 245/65-17 tire on 17x8 wheel with +35 to +38 mm offset.

69-59210

*If the vehicle is equipped with active or passive safety/collision monitoring and/or avoidance systems including, but not limited to, camera- or radar-based systems, check, adjust, and calibrate the vehicle's systems for proper aim and function.
