### PARTS LIST

- |                          |                           |
|--------------------------|---------------------------|
| 1 left side top cover    | 1 Right side bottom cover |
| 1 Right side top cover   | 2 Headrest covers         |
| 1 Left side bottom cover |                           |

Headrest cover identification:  
Tag reads:  
#2 = '07 to '10 rear #4 = 2011+

### PROCEDURE:

1. REMOVE CONTENTS FROM BOX. VERIFY ALL PARTS ARE PRESENT. READ INSTRUCTIONS CAREFULLY.
2. Remove headrests from seats.
3. Separate and identify the left and right side (driver and passenger) components by size.
4. Pull the top cover over the seat and into place. Pull the flap at the lower front through the split between the upper and lower portion of the seat. Attach to the rear portion of the cover with the Velcro on the flap.
5. Pull the lower seat cover over the lower seat section. Run the long straps under the seat towards the back. NOTE: Be sure the straps are loosened to make installation easier. Now insert the clip from the strap into the receiver on the rear section.
6. Tighten the straps until snug on the seat. Pull the side straps under the seat and secure them under tension to the seat frame. Be sure the seat belts are pulled through the openings in the covers properly, and that the seat release pulls are through the covers and available (if installed).
7. Install the headrest cover by pulling over the headrest.
8. Repeat for other side.
9. Reinstall headrests.
