

# INSTALLATION INSTRUCTIONS

## **Parts#: REAR BUMPER GUARD FOR JEEP GRAND CHEROKEE 05-10**

### **Parts List**

- |   |                         |
|---|-------------------------|
| (1) Rear bumper guard                               | (4) 1/2" x 1-1/2" bolts |
| (2) Frame brackets (one driver, one passenger side) | (6) 1/2" lock nuts      |
| (2) 1/2" x 1-1/2 bolt with rod extension            | (10) 1/2" flat washers  |

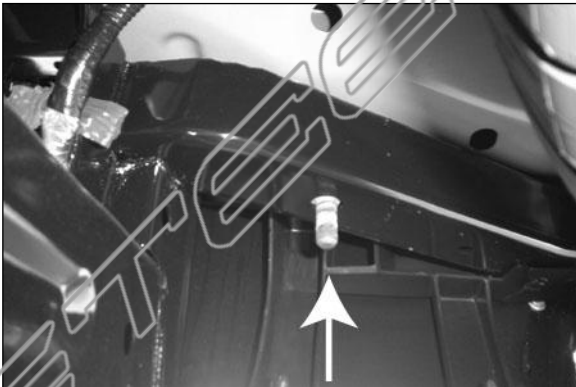

**Read instructions before installing product.**

**1.** Mounting hardware per bracket includes (1) 1/2" bolt with rod extension, (1) 1/2" flat washer and (1) 1/2" locknut.

**2.** Locate (1) hole on each side of the square bumper crossmember. The holes are located between the two bumper brackets that are part of the formed frame rails. Passenger side shown.

**3.** Insert (1) 1/2" bolt with rod extension through outside opening in square crossmember and position so threaded end drops through hole in crossmember. Passenger side shown.

**4.** Fasten bumper bracket to crossmember using (1) 1/2" locknut and (1) 1/2" flatwasher. Tighten until slightly snug. Repeat for opposite side. Passenger side shown.

**5.** With both brackets in place, raise rear bumper guard to vehicle and fasten to brackets using (2) 1/2" x 1-1/2" bolts, (4) 1/2" flat washers and (2) 1/2" locknuts per side. Tighten until slightly snug.

**6.** Adjust guard to satisfaction and tighten all hardware beginning with the vehicle crossmember and then the rear bumper guard hardware.
