Sport Series Main Grille

TOOLS REQUIRED:

Phillips & Flat Screwdrivers
Socket and Ratchet Set

PARTS LIST

(8) 6/32" Nylon Lock Nuts
(8) 2" J-Hooks
(8) 1/2" L-Brackets
(1) Sport Series Grille

PLEASE READ AND UNDERSTAND ALL INSTRUCTIONS BEFORE INSTALLATION. Auto makers offer varied models to each vehicle and occasionally manufacture more than one body style of the same model. To assure your part is correct; our tech department can be contacted at tech@trexbillet.com to verify fitment or assist with tech questions. All other inquiries can be directed to info@trexbillet.com. In the event you do not have internet access please call 1-800-287-5900.

Step 1 Factory Grill Removal

Remove the factory top radiator cover by removing the 13 plastic pop clips securing the top of the cover (note: 3 of the plastic pop clips are on the air intake) with a flat screwdriver. (Fig 1) Now you need to remove 6 plastic pop clips along the inside bottom edge of the factory grill. Reach through the slots below the grille (Fig 3) and remove the pop clips with a small flat screwdriver. Now the factory grill can be removed from the vehicle.

Step 2 Sports Series Grille Installation

Take the sport grille and center it into the factory grill shell. Press down on the sport grille to make sure it seats in the factory grille. (Fig 4) With the grille centered take the 8 2" J Hooks and insert them through the mesh (4 along the top and 4 along the bottom), the hook part will latch around the mesh. (Fig 5) On the backside of the mesh grille take the eight 1/2" L Brackets and slide them over the threaded end of the J Hooks and around the plastic part of the factory grill. Take the eight 6/32" nylon lock nuts and install them on top of the L Brackets and tighten. (Fig 6) Reinstall the factory grill with the sport series mesh grille reinstall it onto the vehicle. Make sure to reinstall all 19 of the plastic pop clips, the intake, and the top radiator cover. Installation complete.
